FIGHTING MAY START AT ANY MINUTE

Relations Between British And Turks Seem To Be At Breaking Point

(By Associated Press)
Constantinople, Sept. 30.—A rupture between the British and Turk forces is thought in military circles likely to be precipitated at any hour unless the Turks withdraw from the neutral zone. Gen. Harrington seems to have exhausted his peaceful overtures and many fear military action will now follow.

(By Associated Press)
Constantinople, Sept. 30.—British officials admit the Chanak situation is growing more critical and hopes for an amicable settlement are waning. If war with Turkey breaks out, and at the moment it appears almost a miracle is needed to avert it. Great Britain will enter it under discouraging auspices for the preponderance of opinion in the nation is not behind the government. Mustafa Kemal Pasha's requirement that the British withdraw from Asia Minor as a condition precedent to a limited retreat of the Ottoman forces from the neutral zone is looked upon in military circles as closing the door to a pacific settlement of the present dispute.

Constantine Goes to Sicily

(By Associated Press)
Athens, Sept. 30.—King Constantine, Queen Sophie and the Prince Nicholas sailed today for Palermo, Sicily on a Greek ship provided for the fallen monarch by the Revolutionary committee. His departure was without ceremony.

SHORT LIVED REVOLT AT JUAREZ, MEXICO

(By Associated Press)
El Paso, Sept. 30.—Ten men were killed and twice that number wounded in Juarez, Mexico, opposite El Paso today in a short lived revolution. The garrison of about 300 attempted to seize the town. Gen. Mendez rallied loyal troops, civilians and river guards and routed the insurgents and regained control. After the revolt was squelched, three private soldiers were stood against a wall and shot to death by the military authorities. The fighting which took place on the main street of Juarez was short lived. The rebels were short of ammunition and retreated.

Says He'll Make an Artificial Wave On Ohio River Monday

(By Associated Press)
Cincinnati, Sept. 30.—Although the Ohio river is at such a low stage that virtually all traffic between Pittsburgh and Cairo, Ill., a distance of 500 miles, has been abandoned, Col. Katz, government engineer, announced today he is planning to start an artificial wave Monday in order to bring down the river coal.

Deny Rumors of Another Revolution in Balkans

(By Associated Press)
Paris, Sept. 30.—An unconfirmed rumor has reached the Hungarian news agency here that a revolution has occurred in Belgrade and that King Alexander, of Jugo-Slavia has been assassinated. The news agency gives out the report "under all reserve."

NOBLE WOMAN IS CALLED HOME

Mrs. Mollie Hugely Parrish, aged 78, wife of Jacob Parrish, died Friday at her home near Red House after a week's illness. She was the last of the large family of Jacob and Flora White Hugely to be called to her reward. Mrs. Parrish was a most exemplary character and was never known to have an enemy. If it be true, as some one has said that "Mansions in heaven are built with material furnished from earth, the good deeds, the kind words, the loving ministrations here," then the subject of this sketch will inhabit her father's mansion, a house not made with hands, and her memory will live long in the hearts of her friends and loved ones. Surviving her are her husband, Jacob Parrish and three sons, Elmer, Ernest and Eugene Parrish. Funeral services were held at the grave in the Richmond cemetery Saturday afternoon with Dr. E. C. McDougle in charge; interment following in the family lot.

Poulin Found Not Guilty

(By Associated Press)
South Bend, Ind., Sept. 30.—Harry Poulin, haberdasher, who was charged by Mrs. Augusta Tiernan with being the father of her third child, was found not guilty in the city court here today.

Judge Ducomb made it plain in his comment that he found the defendant "not guilty" in the strict sense of the word. He said he believed there had been intimate relations between Poulin and Mrs. Tiernan. The fact, however, that Tiernan lived with his wife throughout the entire affair created a reasonable doubt, that made it legally compulsory to find for the defendant. Professor Tiernan announced the case would be carried to the supreme court, if necessary. Tiernan said the decision was a great surprise. He said "It swept me off my feet."

Here To Buy Cattle

Mr. Harry Logan, of Greensburg, Indiana, and Mr. James Oeble, of Cincinnati, have been here for several days with S. A. Deatherage, who is connected with the Union Stock Yards, Cincinnati. They expect to be in the market for some choice feeders court day.

Lebanon To Play Browns Here

The crack Lebanon colored base ball nine comes Sunday afternoon for a game with the star Richmond Browns. The game will be played at Walker's park and will begin at 3 o'clock. The Browns defeated Cynthiana last Sunday by the tight score of 1 to 0 and this game bids fair to be just as good. The Browns are playing great ball at present and the fans are all rooting hard for them to keep it up.

EASTERN PLAYS WESLEYAN SATURDAY

The whole Eastern foot ball squad took the trip to Winchester Saturday to meet Kentucky Wesleyan on the gridiron in the afternoon. Eastern fans believe the prospects for winning are good. Coach Hembree will probably start the game with the following line-up:
Center—Carr.
Guards—Jayne and Triplett.
Tackles—Powell and Lewis.
Ends—Hurst and Potter.
Fullback—Stephenson.
Quarterback—Harris.
Right halfback—Farmer.
Left halfback—Covington.
Jay Stephenson, the plunging fullback was elected captain of the eleven and has already shown marked ability as a leader. Wesleyan held Eastern to a scoreless tie last year but fans thing this will not be repeated. The Eastern squad this year looks better than in a long time.

PARK WILL BE ON FIRST THE 12TH

Jim Park will probably hold down first base for the Richmond team which meets Colonics on the Eastern diamond Oct. 12. He is well known to the local ball fans and needs no introduction. He started his baseball career with Model High School, of this city, a pitcher and is still one of much renown. All through high school he was noted for his sterling pitching and heavy slugging. Afterwards he went to the University of Kentucky, where he played all athletics, but was the star one the baseball nine for four years. Later he was with the St. Louis Browns, where he continued his good pitching for a while. Later he played in Canada, Oklahoma and in Blue Grass league. Everywhere he has shown ability as a fielder and heavy hitter, which won for him the place on the Richmond nine. Added to Park's experience is two years at Transylvania College as coach and one summer with the Lexington Reos.
He is well known to every one in this county, being Madison's representative in Frankfort. His addition to the local nine will form a tower of strength to the offense and defense.

HEARD ABOUT TOWN

J. E. March, hustling hardware merchant, has been in Cincinnati this week on business.

Lexington High defeated Danville Friday 26 to 2. The game was played in a drizzle.

High School football will soon be in full sway in central Kentucky. Friday, Lexington High School, one of the leading eleven of the state, trounced Danville by a score of 26 to 2. The Paris eleven won over the Georgetown College Freshmen by a score of 3 to 0.

Lancaster High School defeated Versailles on the latter's gridiron Friday by a score of 21 to 7. Both of these teams meet Madison Hi later in the season. The locals play Versailles there Oct. 13, while Lancaster comes to Richmond the 20th of October. Both will be stiff battles.

Andy Metz is at Hazard where he will be engaged several weeks in a contract brick laying for a large school building.

Dr. L. E. Kidwell leaves Saturday noon for a ten days' vacation. He will join a party of young people from Paris, Blue Lick and Louisville who have chartered a large motor boat and will spend the time fishing on the Kentucky river. He will return to Richmond October 9th to resume his practice.

Women Men Admire

Men admire a pretty face, a good figure, but more than all a buoyant disposition and the charm of happy content. There is no question but what a light-hearted woman is the joy of a man's life, but no woman can be happy and joyful when, dragged down by the ailments that so often develop headaches, backache, nervousness and "the blues."

We are continually publishing in this paper letters from women who have been restored to health by Lydia E. Pinkham's Vegetable Compound after doctors have failed to help them. If you are ill why not give it a trial? It

MADISON LOSES TO STANFORD HI

Anderson And Hill Star For Visitors—Locals Fail To Score—Interesting Game

The Stanford High school foot ball team proved too strong for Madison Hi in the opening game of the season on Eastern field when they won by the close score of 6 to 0. Allen Anderson, diminutive halfback for the visitors, got away for a 50-yard run after taking a punt in the second quarter. Madison showed fair form at times but did not seem to have the fight and punch that the visitors exhibited throughout the entire game. Madison outweighed Stanford considerably but could not gain consistently with any line of attack. The light linemen of the visitors broke through the heavier opponents time after time to throw the Madison backs for a loss. All in all, the victors outplayed Madison in every phase of the game and deserved to win although they should have been held to a scoreless tie.
Madison kicked off to Stanford which made three first downs before they could be stopped. Allen Anderson showed his ability from the jump when he carried the ball around right end for 17 yards. Later in the game he made long gains for his team. Twice he got around for 25-yard gains in addition to his remarkable 50-yard run for a touchdown. He had to share honors, however, with Willard Hill—called "the Big Swede"—by the rooters. Hill tore big gaps in the Madison line almost at will. He called signals and probably gained more yardage than any man in the game, and principally through the line.
The visitors had fine interference, Hill being in front of Anderson all the way when they went 15 yards for a touchdown. Anderson held Hill's feet all the way, being dragged along, which is a rank violation of the rules.
The Madison bunch played lucky in the latter part of the first half when they completed a forward pass under the shadow of the goal posts they were defending. After Sautley had fumbled, the ball was put in play near the five yard line. John Allman passed the ball forty yards to Reeves which put the locals out of danger for the time being.
Gentry, at guard, was the best in the Madison line, nipping several plays in the bud. Nelson Hurst, a substitute tackle, showed fine form while he was in the game.
The local fans witnessed their first trial for the extra point after touchdown Friday. The ball was put in play on the five yard line where Hill tried to buck it over but failed. The place or drop kick seems about the best way to score this point. The lineups:
Stanford
Dudderar c; Buck rg; Chancellor lg; Davidson rt; Pritchett lt; Ball re; Engeman le; Hill qb; Murphy fb; F. Anderson rh; A. Anderson (6) ll.
Madison
Allman c; Wells rg; Gentry lg; Boen rt; Farley lt; Allman re; Terrill le; Huguey qb; Clouse fb; Reeves rh; Sautley lh.
Substitute Madison: Jones for Sautley; Bower for Wells; Hurst for Boen; Martin for Jones; Stone for Bower.
Stanford: R. Sautley for Engleman.
Officials: Carter and Gumbert.

WILL YOU HELP THE DEMOCRATIC PARTY TO WIN THIS CAMPAIGN?

If so the most helpful thing you can do now is to contribute to the Democratic Educational Campaign Fund so that the Educational work of the Democratic National Committee can be carried out as planned.

For the purpose of getting the record of failure of this Republican Do-Nothing Congress and Do-Nothing Administration before the people, and to show them again the road to **The Democratic National Committee Needs Money and**

Needs It NOW
But Give It Now

The Democratic Party has no privileged classes, no protected profiteers, no trusts or moneybunds to appeal to. It represents only the people, therefore it appeals only to them. **This is a Democratic year.** Do your share to help win the victory.

Democratic Prosperity vs. Republican Disaster

The estimated wealth of the United States when President Wilson went into office in 1913 was \$185,000,000,000; it increased to \$300,000,000,000 in eight years of Democratic rule—a gain of \$115,000,000,000. The present wealth of the United States is \$225,000,000,000—a loss of \$75,000,000,000 in fifteen months under Republican rule.

Since the Republican party was voted into power in November, 1920, the American farmers alone have suffered a loss of nearly \$30,000,000,000.

Some Republican Broken Promises

The Republicans promised the country PROSPERITY; they have given it ADVERSITY.

They promised to stimulate agriculture and business; they have given an industrial panic and destroyed our foreign markets. Foreign trade declined from \$13,500,000,000 in 1920, to near \$6,000,000,000 in 1922.

They promised to reduce taxes; they have shifted taxes of the multi-millionaire and profiteering class to the smaller taxpayers without lifting taxes or reducing them. Repeal of the Excess Profits tax relieved the Big Interests of paying \$450,000,000 in taxes; reduction of the higher surtax relieved them of paying \$61,500,000.

They promised to reduce the high cost of living; they have given a Profiteers' tariff bill which increases the high cost of living, and makes the farmer pay \$5 on everything he buys for each \$1 of "protection" he gets.

They promised to reduce the expenses of the government; they have increased the expenses of running the various departments of the government (1923 budget), three years after the war \$536,000,000 compared to 1915, three years before the war, with an estimated deficit of \$500,000,000 in addition—or \$1,000,000,000 increase.

MONKEY MESSES UP HOTEL

Ring-Tailed Animal From Central America Causes Considerable Commotion During Freedom.

New York.—A little black ring-tailed monkey from Central America escaped from an animal store. He was finally captured in a room of the Hotel Chelsea by Patrolman Ernest Freeburg, but not before he had, during his two days of freedom, caused considerable commotion in the Chelsea district.

The monkey seemed to be partial to the Hotel Chelsea. He was first seen on a fire escape of the sixth floor. Several times he was cornered in rooms there, but always escaped. He got into the room of Arthur Wolte, resident manager of the house, and ate a couple of thrushes which were being sweetly.

Soon after this the monkey went into the room of a gentleman who had been drinking home brew, and the gentleman called the hotel clerk to witness that he had sworn off from that moment, it being his belief that the little monk was equipped with green wings and yellow hands. Stunions and the police tried to poison the monkey after that, sprinkling a deadly liquid on a bunch of bananas, but the monkey ate the good fruit and let the poisoned bananas alone. He was finally cornered in a room on the third floor of the Hotel Chelsea, and while two boys closed the windows on the fire escape the policeman went in and captured him. Then he was locked up.

SUE FOR AMERICAN'S DEATH

\$100,000 Reparation Asked of Turks for Death of George Knapp, Murdered by Soldiers.

Los Angeles, Cal.—A claim of \$100,000 as reparation for the death of George P. Knapp, an American, seven years ago in Armenia, is being prepared for filing against the Turkish government by officials of the State department at Washington, according to a statement made here by Knapp's brother, J. Herbert Knapp, a civil engineer.

When Knapp died, typhus was given as the cause, but his brother believed the cause was more sinister and left his home here to go to Turkey and Armenia, where he passed years in an investigation. He secured an affidavit from an Armenian banker, which declares his brother was taken by Turkish soldiers, who trampled into the dust the American flag over his door, tied him to a tree in a desolate place and shot him three times simply because they believed he knew too much about their repressions.

BIG-SIX
TOURING

\$1650

THE dependability of the Studebaker Big-Six is due to correct design, the use of the best materials money can buy and the highest standard of workmanship.

Studebaker stands in absolute control of the quality of the materials at all times, because Studebaker makes in its own plants such vital parts as motors, transmissions, axles, frames, bodies, tops, castings, forgings, stampings, etc. The parts-makers' profits on such items are, therefore, eliminated and only one manufacturing profit is included in Studebaker prices.

The Big-Six is distinctive in appearance with its handsome body and many refinements. It offers genuine comfort through its long semi-elliptic springs,

restful 9-inch seat cushions, fine upholstery and shock absorbers. It is economical to buy and own, and enjoys a high resale value.

The new price of \$1650 for the Big-Six Touring car is the lowest at which it has ever sold. Yet the quality is actually better than ever and this means a value that is duplicated nowhere else in the field of fine cars. You won't find greater satisfaction at any price.

The Big-Six Touring car provides ample room for seven. When not in use the auxiliary seats fold neatly out of sight—always ready for instant use when you need them.

The name Studebaker is our greatest asset and your best protection.

Jasper, Minn. — "I saw in the paper about Lydia E. Pinkham's Vegetable Compound and took it because I was having such pains in my stomach and through my back that I could not do my work. I have told a number of friends what it has done for me and give you permission to use my letter as a testimonial." — Mrs. JESSE PETERSEN, Route 1, Jasper, Minn.

AUCTION SALE

Pure Bred "Big Type" Poland China Swine

Saturday, October 7th 1922

At 2 o'clock rain or shine, at the East End Stock Yard in Richmond, Ky., offer at public auction 22 head of pure bred Big Type Poland China hogs, consisting of eleven boars and eleven gilts, weighing about 200 pounds.

Farmers, this is your opportunity to get a good boar to use on that bunch of grade sows. Buy these boars, take them home, breed your sows. If you don't care to keep him any longer, castrate him and put him in the feed pens. You will see a difference in your spring crop of pigs.

Buy some of these nice gilts and start a pure bred herd. Hogs are getting higher every day and now is the time to raise them while feed is cheap and hogs are high.

These hogs have all had the double treatment and should be cholera immune. Pedigrees will be furnished day of sale. Don't forget the place and hour.

GREEN CLAY WRITES ON PROPOSED ROAD TAX

Assuming that the road maintenance fund of Madison county is not now sufficient to properly keep in repair its many miles of dirt and macadam roads it is eminently proper that we seek to better our condition. The proposed 20 cent road tax for six years will pull us out of the mud and place us on good roads according to its advocates.

By voting an extra tax on each \$1,000 worth of property for six years, \$12 for the entire period, the result eventually will be the trickling into the ditches of non-inter county roads of more money than can now be hoped for. This fact is luridly pointed out in order to secure the support of the farmer who lives on other than inter-county roads and just here it is well to also point out that a big majority of Madison county farmers live on non-county roads.

In the meanwhile the farmer who pays taxes on \$10,000 is out \$120 and may be benefited to some extent by money expended on his road that otherwise will be placed on the main highways. To believe that his farm will be benefited \$120 worth in this roundabout way requires an optimistic imagination few of us possess.

What the farmer wants and foremost in a road is to be able to reach the county seat safely and comfortably. Next he wants to get to church and over to his neighbor's place and lastly he wants to be able to ride out of Madison county. Any of them will struggle manfully to open up a passway to the pike, willingly they will exert themselves to improve the road into Richmond. Beyond that it will take some strong oratory and tall figuring to induce him to contribute money to an enterprise like the proposed Richmond-McKee road that theoretically will bring wealth into the county some of which will, through mysterious channels, trickle into his pocket. It is assumed that this tax will make available the sum of \$300,000 to be expended on new and reconstructed inter-county roads. It is assumed that so called state aid will double the amount and that Federal aid will further increase the sum. That word "assumed" is used here advisedly for the reason that it is purely an assumption, a camouflaged phrase, a delusion and a snare.

The farmer who pays his \$120 special road tax will also pay his \$120 "State Road Aid" fund and his proportion of the Federal road aid fund. It will be removed from his possession in more roundabout ways and under different titles but it will be extracted from him nevertheless. There will be no let up in collecting the entire tax either. The entire 20 cents for six years could be placed to advantage in this county on inter-county roads within the next six months.

It is quite apparent that increased trade with Jackson county will benefit Richmond merchants but in as much as this is purely a commercial enterprise, in no wise philanthropic, each tax payer is entitled to view the matter from his own selfish standpoint. And keep in mind that the great bulk of the tax will come out of the farmer's pocket.

Arguing in favor of good roads and better roads all down the line is it not apparent that what Madison county most needs at present is better maintenance of existing highways rather than the acquiring of more roads that inevitably must be repaired at the expense of the tax payer? How we would all rejoice if that \$300,000 was applied to fixing up the disreputable roads that infest the county! How great land values would increase and how sharply would farm profits develop if all the country roads

were good and serviceable highways!

This county creates wealth, it does not haul it in from adjoining territory. It is of vast deal more important to facilitate delivery and distribution of county produced wealth than it is to invest tax money in a venture beyond the hill. Madison county farmers lose thousands of dollars every year because of bad roads. If we can spare 20 cents on every \$100 for six years it will add ten to one more money to the wealth of the county if it is placed on existing roads.

Whenever a farmer invests more money in a new steer it inevitably requires more money to be invested in new feed. No farmer immune from the insane asylum will put all his money in a steer and trust to luck to produce the new feed required. It has been otherwise with our road builders of the past. We have seen miles upon miles of new road built with no provision of thought, apparently, of future cost of maintenance. They have trusted to the luck of future floatations of bonds or taxes to take care of them just as it is now proposed to care for the old back woods pike with tricklings from the Richmond-McKee project. The psychology relied upon has been that once the people are loaded with the burden of a new road its very preservation will force them to save it by further expenditures.

It won't do. If we can not afford to put a new roof over the old road we certainly can not afford to build other roads that will quickly call for new roofing. County bonds, special road tax. State aid and Federal aid spells money out of the Madison county tax payers' pockets and nothing else. There is no Christmas present in it from a mythical Santa Claus. We pay the bill as matter under what title it is presented. If the new road is built to the Jackson line the tax payers of Madison county will eventually pay cent of its cost. Are the tax payers willing to place their money there rather than in their pockets or in fixing up old roads? That is the question, stripped of covering, which this proposition raises.

GREEN CLAY.

RICHMOND DEMOCRATS!

If you want to vote for Gilbert for congress and on the road tax question, don't forget to register Tuesday, Oct. 3. You cannot vote unless you do. 231-3

COLORED COLUMN

Community Uplift Activities

I take it that the general public is more or less interested in whatver goes on in this community. On that basis I proceed to mention some important doings in colored extension circles. In June there was organized a County Extension Advisory Board a sort of County Agent's Advisory Board, to assist the agent in planning and carrying out plans of community interest and betterment. This board meets monthly somewhere in the county. The order of business is first: Minutes of the last meeting; unfinished matters; new business; reports, short talks, a short sermon, free lunch and adjournment. In addition to our annual Agricultural and Industrial Fair, a number of Community Fairs were planned for the fall. The first one was held at Pleasant Grove church Saturday, Sept. 16, and was quite successful. The children were overjoyed at the prospect of holding a fair and under the leadership of their energetic teacher, Miss Annie Maupin, arranged a creditable exhibit of fine corn, pop corn, apples, potatoes, tomatoes, tobacco, essays, problems, maps, drawings, and card board furniture articles. The boys made wood articles such as sleds, paddles, churn dashes and tops, knives and rolling pins, which doubtless were sold at good price

to Maggie Jiggs. The women put on a fine canning and cooking exhibit. A magnificent lunch was spread on the grass after which everybody went away happy. The second community fair will be held at the Berea fair grounds Saturday, Sept. 30. Beside community exhibits, there will be a ball game and potato race. The grand daughters of George Reynolds, the hustling Berea mail man, will set up her boom and give a demonstration

in weaving. Dr. J. E. Hunter, of Lexington, will talk on "Sanitation and Health." Mrs. L. B. Sneed, of Louisville, will deliver the principal address. There will be a charge of 25 cents at the gate with free dinner. The third community fair will be held at Pleasant Green near Waco Saturday, Oct. 7th. The closing event of the season will be our Annual Agricultural and Industrial Fair, Friday and Saturday, October 13 and 14 at the Rich-

mond High School building. The catalog is now in the press and will be distributed soon, showing a list of valuable premiums, among which is one hundred pounds of fine flour. We trust that friends of the colored uplift work will not forget those merchants whose ads appear in our catalog. Let the people of the county join in and make this fair a great demonstration of progress.
